Karza can assist you by:

- Undertaking third party audits or organisational assessments of your contractor's quality, health, safety and environmental systems;
- Reviewing your contractors risk management practices (including Safe Work Method Statements; Job Safety and Environmental Analysis; and Site Management Plans);
- Evaluating the success of your contractor selection and engagement process;
- Monitoring your contractor's performance at an individual site or at multiple locations throughout project delivery; and
- Developing your contractor monitoring processes and training your internal audit team.
